

Lesson Plan

Topic: Gender Stereotypes and Gen Z

Teacher:	Ed Rush	Date:	15 June, 2026
Class:	M3	Duration:	46 minutes
CEFR Level:	B2	Lesson Shape:	G (Task-Based Learning)
Materials:	• BTN video (Episode 15, 25 March 2026) • YouTube clip: Andrew Tate (https://www.youtube.com/watch?v=I-lbCHM5rig) • Slide deck		
Slideshow URL:	https://elwrush.github.io/lesson-plan-writer/M3-SPEAKING-TBL-GENDER-ROLES/		

Lesson Aim

Main aim: By the end of the lesson, learners will have completed a task about gender stereotypes and will be better able to present a structured opinion with evidence in the context of Gen Z and traditional gender roles.

Subsidiary aim: Learners will also have practiced using discourse markers and supporting evidence to structure their arguments.

Lesson Stages

Time	Goal	Procedure	Int
STAGE 1: Concept Check CCQ			
5 min	To activate learners' recall of key statistical evidence about Gen Z attitudes	• 5 slide-based CCQs on the Kings College study statistics • Focus on key figures: 31% Gen Z men, 33% final word, 61% enough done • Pairs discuss their answers • Whole-class feedback	T-Ss
STAGE 2: Video Input – Andrew Tate			
5 min	To introduce a second source of evidence for the speaking task	• Show Andrew Tate YouTube clip • Present stats slide on his media reach and Gen Z target audience • Brief class discussion: why does this matter for our debate?	T-Ss
STAGE 3: Structure Input			
10 min	To present and model the Opinion → Reasons → Evidence monolog structure	• Display the four-part structure: Opinion, Reason 1, Reason 2, Conclusion • Model how to extract WH evidence from the BTN video and Tate clip	T-Ss

Time	Goal	Procedure	Int
		- Emphasise non-verbose outline format: bullet points only, no full sentences - Show example outline on slide	
STAGE 4: Transitions Input			
5 min	To introduce appropriate discourse markers for each part of the monolog	- Display transition phrases on slide - Opinion openers: I partly agree/disagree that..., In my view... - Evidence phrases: According to the BTN video..., The study found that... - Concluding phrases: Overall, this suggests that..., Taking everything into account...	T-Ss
STAGE 5: Model Answer Analysis			
5 min	To analyse a model answer that demonstrates the opinion-evidence-conclusion structure	- Display model answer on slide - Students identify: opinion, reason 1, reason 2, conclusion - Draw attention to discourse markers linking each part - Elicit what makes the evidence effective	T-Ss
STAGE 6: Task Cycle – Prepare Outline			
10 min	To give learners time to prepare their own structured outline for the monolog	- Students write a non-verbose outline for their 2-minute monolog - Outline must include: opinion, 2 reasons, WH evidence from BTN/Tate, conclusion - Teacher circulates and monitors, providing guidance on structure and evidence	S
STAGE 7: Task Cycle – Individual Monolog			
6 min	To give learners the opportunity to deliver their monolog individually	- Students deliver their 2-minute monolog to the teacher individually - Speaking without notes from their outline - Teacher observes and notes strengths in structure, transitions, and evidence - Formal PET-scale assessments in subsequent lessons	S
